6 FOOT TRACK - KATOOMBA TO JENOLAN CAVES
- Overnight walk on Saturday - October, 1987

1. Overview:

A group of us are going to walk to Jenolan Caves from Katoomba along the famed 6 foot track commencing on Saturday - 24 October, 1987. We will camp near the Cox's River overnight that night and complete at Jenolan Caves on Sunday afternoon. We will organise half the cars to be left at Jenolan Caves to get us back to the start point at the Explorers Tree at Katoomba after we have finished the walk.

The walk is about 42 km so that we will be doing about half that distance on each day.

2. Participants:

A list of people following along is attached.

3. Equipment:

You should bring a tent, or make arrangements to share one. You will need sleeping bag, ground sheet (if not included in the tent), a change of clothes and foot powder. You will also need a small camping cooker, or make arrangements to share.

4. Food:

Apart from food you should make sure you bring enough to drink. You will consume alot of liquids whilst walking and you may find that "Poppers" or similar are not the best thing to quench your thirst - water may be preferable.

You should make sure you have sufficient food for the following:

Lunch Saturday
Dinner/Tea! Saturday
Breakfast Sunday
Lunch Sunday
Snacks

The lunches should be able to be eaten "on the march".

5. Timings:

We will rendezvous at the Explorers Tree at Katoomba at 0800 on Saturday - 24 October, 1987. We will start walking at 8.30.

6. Route:

Our route will be down through Nellies Glen to the Cox's River where we will camp on the Saturday night. If you want to know more about the 6 foot track there is an excellent book, entitled, "From Katoomba to Jenolan Caves The Six Foot Track", by Jim Smith - Published by Second Back Row Press Pty. Ltd. Apparently the route is moderately well marked but I have no doubt that we will take the odd wrong turning. In such event, a committee decision on panicking will be taken.

7. Administrative Arrangements:

We will have to make arrangements to take half the cars to Jenolan Caves prior to commencing so we can all be given a lift back to Katoomba.
